The Hawaiian Affair.

The last month of Harrison's administration the people of the United States were startled by the announcement that the Queen of Hawaii had been deposed, and President Harrison rushed in a message to the Senate urging the prompt recognition of the new government set up instead of that of the deposed Queen.

The announcement of the whole thing caused thousands to believe that there was something wrong in the great anxiety for the immediate annexation of that country to the United States. The Courier then knowing nothing of the facts, took occasion to say that this country could not accept any such hybrid, messy population even if the Hawaiian people would be for annexation, and that it would be a great wrong if accomplished by force and against the will of the natives of that country.

President Cleveland, immediately after succeeding Harrison, called a halt, and recommended an Congressional Blot to go to that country and make a fair and impartial investigation. This he did, and made his report to the Secretary of State. Secretary of State Graham, in a published address, expressed to the world, that the Queen was deposed by a conspiracy between the Hawaiian Minister and a handful of gentlemen bent on speculation—making money for themselves, and that these money sharks, under the American flag, were to upset the Hawaiian government and had no other backing whatever in their so-called Hawaiian revolution.

The people will be both to believe that an American Minister to a foreign government—because that government was weak and small, would so prostitute the name and honor of his country to nefarious purposes that the State Department is in possession of such undoubted evidence that our Secretary of State was prevented from forcing to admit the wrong thus perpetrated.

THERE was a very heavy fall of snow throughout Colorado Friday.

Hon. HARRY GEORGE of Greece county, has been elected attorney of the penitentiary.

It is estimated that 100,000 dollars remained away from the polls in New York.

CONGRESSIONAL committees are at work at Washington preparing for the next session of Congress.

REPUBLICAN papers all over the country are now busy commencing McKimley for President in 1896.

Wages troubled with pain in the stomach, bilious colic or diarrhoea, Dr. Chamberlain's Colic, Cholera and Diarrhoea Remedy is a tried and true remedy for all such ailments. It is pleasant, safe and reliable. 25 and 50 cent bottles for sale by T. T. Swayne, Druggist.

REPRESENTATIVES of tobacco manufacturers in Kentucky and other states held a meeting at Washington and adopted resolutions protesting against any increase in the tax on manufactured tobacco.

FINCH what Senator Harris says there is no doubt that the free silver bill will be renewed during the winter session. The policy of the silver men seems to be that of the Irish parliamentary party—to block the way.

MISS MINA WHEELER, the Democratic candidate for Kentucky Superintendent in Crittenden county, was elected by 4 votes over her opponent. Miss Wheeler makes four counties elected to office in as many counties of Kentucky.

LEADING statesmen at Washington are divided as to Secretary Graham's Hawaiian policy. Some like it and some don't. Great many think that the government has no right to take the Hawaiian Islands for the restoration of the Queen to the throne.

In Clay county, a monotonous course of eastern Kentucky, not a single democratic vote was cast in last week's election. There was but one ticket, the republican, and half the republicans did not know the names of the men they were voting for.

There is no reason why Democrats should be discouraged over the results of Tuesday's election. They should blame themselves for defeat.
